

American Cierra Corporation

INDUSTRY LEADER IN RECYCLING PROCESSES

American Cierra is an industry leader in the recycling process, with approved Patents and more pending. Our low cost plastic recycling Wash Lines separate the plastic by density, and then reprocesses this plastic into clean reusable materials. The process is automated to meet your production needs, efficient and proven.

Sink Float Tank

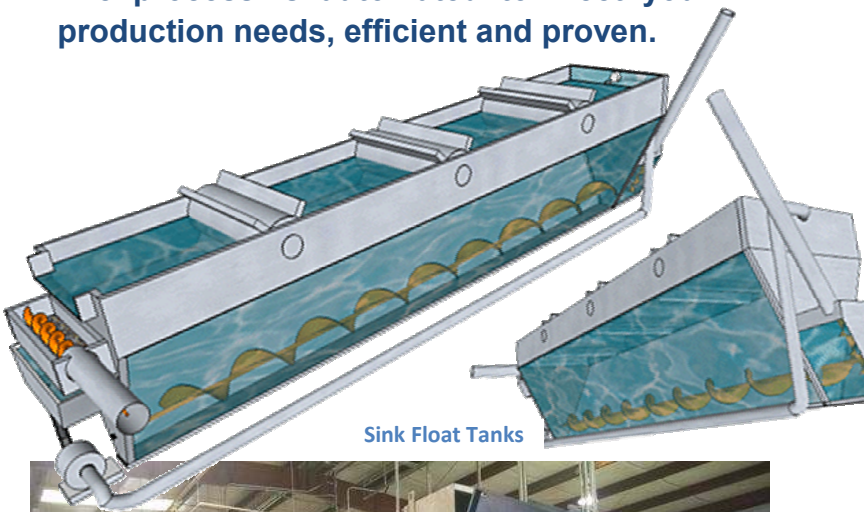

Sparkling Clean

American Cierra's Plastic Wash Lines are composed of several pieces of core equipment:

- Shredder/Grinder
- Sink Float Tank / Separation System
- High-Speed Turbo Washer
- High-Speed Turbo De-Water/ Pre-Dryer
- Water Filtration System
- Cyclone Dryer
- Vacuum Blower
- Control Panel

Our Wash Lines are custom designed to meet your needs. Additional machinery such as bale breakers, sortation tables, rotating trommels, hydrocyclones, air classifiers, heat exchangers, and conveyors/augers can be added to remove certain contaminants and improve the overall quality/cleanliness of the washed plastic waste.

Sink Float Tanks

All of our systems are designed to be modular which allows us to build each recycling line to our customers' requirements. And more importantly allows you to adapt and grow with technology.

Visit our web site for a complete listing of Recycling Equipment or give us a call to design a custom line to fit your needs and your budget.
